Edition #9 – May 8, 2008

## Race Results

04-05-08 at Park Jefferson = Finished 9<sup>th</sup>. Won our heat by leading every lap. Started 7th and after dialing in more front brake during a restart, car was a little too tight.

04-19-08 at Park Jefferson = Finished 10<sup>th</sup>. Started 9th and caught up behind a wreck. Car killed and couldn't get it refired in time and was sent to the back. Front end had no grip and would just slide up the track.

05-03-08 at Park Jefferson = Finished 11<sup>th</sup>. Had no rear brakes. It's kind of hard to turn the car without them. The master cylinder that controls the pressure to the rear brakes was not working properly.

## **Rain, Rain (and snow!) Go Away**

The first 5 nights of racing at the Fairmont Raceway have been cancelled due to rain, and yes, snow. Two nights at Park Jefferson have been cancelled as well. It has definitely been one of the wetter springs that we can remember
